PROFESSIONAL SUMMARY

I am a Front-End Software DevOps Engineer, and a graduate of computer science. I can learn and implement new technologies. I focus on dynamics and efficient applications. Eager to join a creative organization to be able to create, develop and maintain cross-platform applications.

INTERPERSONAL SKILLS

- Problem-solving
- Promoting and communicating new ideas
- Creating process improvements
- Team collaboration
- Writing maintainable cross-browser code
- Critical thinking & Multitasking
- Ensuring code is scalable and responsive

AREAS OF EXPERTISE

- Frontend Development
- Software Engineering
- DevOpsps engineering
- IT Network administration and customer support specialist

WORK EXPERIENCE

Frontend Engineer | Network/Infrastructure Administrator
October 2022 – Present

Kropmann Communications Limited Lagos, Nigeria

- Work closely with design, product management, and development teams to create elegant, usable, responsive, and interactive interfaces across multiple devices.

- Turning UI/UX designs into prototypes, creating excellent interactions from designs, writing reusable content modules, and maintainability of the code.

- Implement UI development principles to ensure that the product client-side serves at scale.

- Review and optimize the app usage by monitoring key metrics and rectifying the issues proactively.

- Design and implement short-term and long-term strategic plans to make certain network capacity meets existing and future requirements.

- Plan, acquire, and coordinate installation of in-house and remote hardware and software across the organization's network and cloud-based infrastructure.

- Test network performance and provide network performance statistics and reports; develop strategies for maintaining the network infrastructure.

Software Engineering (Intern)
February 2022 – Present

ALX Africa
- Developing applications (coding, programming)

- Debugging and testing code

- Documenting and testing new software applications

- Researching, investigating, and fixing a wide range of technical issues

- Collaborating with senior leaders

- Approaching problems and creating solutions

- Proactively learning about new technologies

Frontend Developer (Intern)
November 2021 – September 2022

Kropmann Communication Limited Lagos, Nigeria
- Use markup languages like HTML to create user-friendly web pages

- Maintain and improve the website

- Optimize applications for maximum speed

- Design mobile-based features

- Collaborate with back-end developers and web designers to the improve usability

- Get feedback from, and build solutions for, users and customers

- Help back-end developers with coding and troubleshooting

- Ensure high-quality graphic standards and brand consistency

Advanced web development (Intern)
May 2019 – December 2019

Aptech Computer Education Enugu Centre

- Meet with clients to discuss their website design and requirements

- Create and test apps for the website

- Code for the site using HTML or XML and/or other programming languages

- Engage with members of their team to ascertain the kind of information the site should contain

- Work with designers, such as graphic designers, to determine the site's layout

- Integrate audio, video, and graphics into the site

- Quality-test and troubleshoot the website and/or its applications in various browsers

TECHNICAL SKILLS

- Microsoft Office(Word, Excel, PowerPoint)
- Computer Networking
- Graphics design
- Linux
- Git and GitHub
- Python

- Front-End development(HTML, CSS, Bootstrap, TailwindCSS, JavaScript, React.JS)
- DevOps
- MySQL
- PHP

EDUCATION

Bachelor of Science (B.sc Hons) (Computer Science 2016 – 2021)

Enugu state university of science and technology (ESUT)

West African Examination Certificate

Basic comprehensive Secondary School (**2006 – 2012**)
